## II. CNC Cutting Machines

1). Portable CNC cutting machines  
--RateTech Dagger series

RateTech Dagger II, portable cantilever type CNC cutting machine.

Main technical parameters of **RateTech Dagger II**

Type	RateTech Dagger II
Input voltage	220V/110V, single phase, 50Hz, universal single phase input voltage
Cutting thickness	Plasma: depend on plasma cutters Flame: 5-150mm
Effective cutting range	1500*3000 Other size is optional
Position accuracy	0.2mm
Repeatability	0.2mm
Cutting modes	Flame only Double flame Plasma or flame
Cutting speed	Plasma: 0-4000mm/min Flame: 0-600mm/min
Cutting software	FastCAM professional version; IBE / FastCAM basic version (optional)
Torch height control system	Plasma (for plasma cutting mode)
Cutting material	Carbon steel, stainless steel, copper alloy, nickel alloy, titanium alloy, etc.
Cutting table (optional)	Dry cutting table or water cutting table
Plasma cutter (optional)	Hypertherm, Victor, TopTech JCH series plasma cutter
